## Summer is here!

We're glad to see the warm sunny weather returning and everyone here at Chase Park has been making the most of it. We've spent as much time as possible out in our lovely grounds; soaking up the sun, playing garden games, dining al fresco and socialising. A little bit of sun really has brightened up our lives and we look forward to the summer ahead.

*"Keep your face to the sunshine and you will never see the shadows"*

Walking Wednesdays are still in full swing too, if you can't find us we'll be at the park!

We've enjoyed the company of our furry friend Watson again this month, who spent a morning popping from room to room, greeting every one of our service users and getting plenty of treats. Watson is a lovely therapy dog and all of our clients thoroughly enjoyed seeing him, we can't wait to see him again soon!

We were also visited by 'Active Families' earlier this month who came to do a tester session with our clients; this entailed of wheelchair-exercises, lots of pom-poms and lots of laughs. Our service users enjoyed this experience, and are excited to join the Active Families team in the local park in the coming weeks for more exercise groups.

In-between visitors and outside activities, we've still made time to do plenty of crafts. Our favourites this month have been decorating pots and making artificial flowers to put in the pots, which turned out beautifully, and our bird feeders. To make the bird feeders, our service users got pine cones, rolled them in peanut butter or syrup and then rolled them in bird feed. Everyone was rather proud of their feeders, and were even happier when we checked the next day and the birds had thoroughly enjoyed their treats hanging from the trees.
